

PRESS RELEASE

Releasing KewMann ESG Platform (K•ESG) that Empower more Organisations towards Net Zero and Achieve Sustainability

Singapore, 01 February 2023 – KewMann has released an AI-based Environment, Social, and Governance (ESG) reporting, management and recommendation platform, called **K•ESG** that aims to empower more organisations maintain strong sustainability, gain sustainability opportunities, while minimising ESG risks (i.e. climate change risk, compliance risk, carbon emission level) in long term.

Governments in Asia are strengthening ESG regulations and ESG reporting will be as important as financial reporting for all large organisations in 3 years' time. Thus, KewMann urged to assist more organisations in enhancing ESG reporting, management and recommendation while become the earliest to reach net zero. Why choosing K•ESG Platforms:

- **AI and data** at the **central of ESG compliance**
- **Centralise all data** on ESG from various sources
- **Minimise risk** on ESG non-compliance and **maximise opportunities** in ESG matters for Scope 1, 2 and 3
- **Increase trust** for investors, stakeholders, and consumers

Speed up your process to reach Net Zero by embarking your ESG journey with KewMann Now!
